For a sustainable human development integrating environmental protection
For those, like Fondation Ensemble, who have made the fight against climate change their field of action, 2015 marked, or - to be more cautious, should mark – a milestone. The Paris Agreement, thrashed out at the last minute by the 195 countries attending the UN Paris Climate Conference, should enable a shift towards a low carbon world … provided the Agreement is ratified by 2020.

Fondation Ensemble was extensively involved in the Paris Climate Conference and organized several events in the framework of the 'Foundations and Climate' network, run by the French Foundation Center. As founding members, we signed the Divest/Invest pledge, reflecting our determination not to let the Foundation's financial assets support an economy based on fossil fuels. This is an obvious step to take for those who are concerned about the future of our planet. However this important initiative, which has already mobilized almost $4 trillion worldwide, has not yet been widely taken up in France.

On the political front in France, which is the second-largest global consumer of pesticides, environmental action remains paralyzed by elections and lobbies. In the meantime, bees are dying, amphibians that resisted four mass extinctions of species are disappearing, and so it goes on. In his book Le Monde au défi, Hubert Védrine reminds us that 'the only link between human beings is their collective survival. We need to develop a universal ecological awareness – to move from geopolitics to geo-ecology.' Let us pin our hopes on the energy and creativity of civil society, which, among its many other initiatives, has successfully used methane to create a material as strong and cheaper than plastic; has turned trawlers into collectors of trash for use in the textile industry; has finally made a large-scale commitment to the development of all forms of renewable energy; and so many other initiatives… This civil society which in 2015 lost one of its most valued members, one of the first to sound the alarm – Jean-Marie Pelt, member of our Board of Experts. We will not forget him.

The life of our Foundation is firmly rooted in the concrete and targeted action that we take in our focus countries and sectors. It can be measured through our support for new projects and appraised, in the long term, through the work accomplished in the land and marine environments where we work for the benefit of the local populations.

Never forgetting the importance of the link that binds all the elements in the chain of life, let us continue to move forward … together.

Jacqueline Délia Brémond
Co-Founder
Co-Chair
Governance . Board of Directors

**Founders**

Gérard Brémond,  
Co-Founder and Chair  
CEO, Groupe Pierre&Vacances-Center Parcs

Jacqueline Délia Brémond

Olivier Brémond  
Founder, Kisan Company

Nathalie Délia Wenta  
Chair, La Maison 24 - NGO

**Advisory Board**

Jacqueline Aloisi de Larderel, Former Senior Official, UNDP

Bénédicte Menanteau, UPAYA Co-Founder, Haut Conseil à la vie associative member  
Admical former delegate (from 2009 to 2015)

Nathalie Sauvanet, Head of Individual Philanthropy and Funding - BNP Paribas  
Director - Fondation de l’Orangerie

Bertrand Charrier, Innovations for Development Manager - AFD

Gérard Worms, Vice-President - Rothschild Europe
The Foundation in Figures

**Commitments in 2015**
8 projects were selected in 2015 for a total commitment of $1,480,000, co-financing overall budgets worth $7.3 million, with a leverage ratio of 1:5 ($1 committed for every $5 of project budget).

**Special fund ‘Conservation of threatened animal species’**: Ten small grants were awarded this year for a total commitment of $130,000.

Our Implementation Countries

- Ecuador
- Peru
- Mozambique
- Laos
- Cambodia
Our Focus Sectors

Sustainable agriculture
The Foundation supports initiatives that improve food security, increase and diversify local populations income, through a sustainable and environmentally friendly approach.

Biodiversity conservation
The Foundation supports initiatives aimed at protecting or rehabilitating land and marine ecosystems of particular interest, through and for the benefit of local communities.

Sustainable fishing
The Foundation supports initiatives aimed at conserving fish stocks through a community based approach: setting up protected areas, fighting illegal fishing, conservation...

Sustainable technologies
The Foundation supports initiatives that enable access to renewable energy, sustainable construction and waste conversion.
Louvain Coopération - Peru

Economic development and living conditions improvement of the Arequipa and Moquega populations through sustainable farming methods - Grant: $151,000

Agrisud – Laos

Fighting poverty and contributing to the development of mountain communities through the use of appropriate agricultural models, while rehabilitating, conserving and harnessing natural resources - Grant: $160,000

Care - Ecuador

Reducing the vulnerability of communities living in the páramos in the San Pedro river basin, to the impacts of climate change on their livelihoods - Grant: $183,000

Sustainable Agriculture
© Vassil Atanasov
Sustainable Agriculture

**AVSF - Ecuador**
Agroecological production and development of local markets by Indian organizations in two northern Ecuador provinces - **Grant:** $171,000

**Christian Aid / Dan Church Aid - Cambodia**
Promoting community based climate change adaptation with the inhabitants of 12 villages in Ratanakiri province - **Grant:** $91,000

**Rainforest Foundation UK - Peru**
Organic cocoa production in the Peruvian Amazon: sustainable livelihoods for indigenous families - **Grant:** $137,000
Concern Worldwide - Mozambique
Food, Income, Equality and Nutrition: Promoting sustainable development and income generation through conservation agriculture - Grant: $114,000

Essor - Mozambique
Sustainability and scaling up of a urban and suburban agriculture development project in Maputo, Mozambique capital - Grant: $171,000

AVSF - Laos
Community development and sustainable management of natural resources in the Nam Phaak river basin, Oudomxay province - Grant: $200,000
Sustainable Fishing

Conservation International - Ecuador
Better quality mangroves: ensuring long-term income generation for local communities in the Gulf of Guayaquil - Grant: $137,000

WorldFish - Cambodia
Empowering community management of fisheries conservation areas in the Stung Treng Ramsar conservation site - Grant: $91,000

Zoological Society of London - Mozambique
‘Our sea, our life’: conserving marine biodiversity through the establishment of locally managed and sustainably financed marine protected areas in coastal communities - Grant: $457,000

Conservation International - Ecuador
Better quality mangroves: ensuring long-term income generation for local communities in the Gulf of Guayaquil - Grant: $137,000
Sustainable Fishing

**Istituto Oikos - Mozambique**
Natural resources conservation and economic development for fishing coastal communities of the Quirimbas National Park - **Grant:** $137,000

**Peace Parks Foundation - Mozambique**
Sustainable fishing and alternative livelihoods for communities living next to the Ponta do Ouro Marine Reserve - **Grant:** $229,000

**Environmental Justice Foundation - Coastal areas of western Africa**
Protection of fish stocks and food security in the community-run Marine Protected Areas of Sierra Leone and Liberia - **Grant:** $86,000

**Istituto Oikos - Mozambique**
Natural resources conservation and economic development for fishing coastal communities of the Quirimbas National Park - **Grant:** $137,000
Biodiversity Conservation

**Conservation International - Peru**
Improvement of organic coffee practices to strengthen community livelihoods and enhanced biodiversity conservation in The Alto Mayo Protected Forest - *Grant:* $143,000

**Ocean Revolution - Mozambique**
Entrepreneurial biodiversity conservation through the establishment of an Ocean Life Center and the creation of a locally managed marine area in Inhambane Province - *Grant:* $160,000

**Fauna and Flora International - Cambodia**
Improving Cardamom communities livelihoods and conserving biodiversity through participatory land use planning - *Grant:* $143,000
Conservation international - Cambodia
Strengthening and developing income generating activities, maintaining food security and improving access to drinking water for the communities living beside Tonle Sap lake - Grant: $171,000

Wildlife Conservation Society - Cambodia
Training local farmers in management of the Tonle Sap lake ecosystem and floodplains; improving livelihoods; conservation of the Bengal Florican and extension of its habitat - Grant: $137,000

GRET - Mauritania
Strengthen the Diawling Park’s biodiversity conservation initiatives and reinforce its role as a driver of local sustainable development - Grant: $103,000

Conservation international - Cambodia
Strengthening and developing income generating activities, maintaining food security and improving access to drinking water for the communities living beside Tonle Sap lake - Grant: $171,000
Sustainable Technologies

**Humana People to people - Mozambique**
Provide quality lighting to 4,200 people by selling and renting out lanterns run by local entrepreneurs - **Grant:** $103,000

**SNV - Cambodia**
Promotion of milled rice sustainable production and consumption through waste to energy technologies and new norms establishment - **Grant:** $148,000

**Electriciens Sans Frontières - Laos**
Local communities’ healthcare and educational conditions improvement through provision of secure and sustainable access to solar and hydro electricity - **Grant:** $91,000
Sustainable Technologies

People In Need - Cambodia
Turning waste into energy through the development of the biodigesters market-based sector and greenhouse gas emissions reduction - **Grant:** $154,000

Association la Voûte Nubienne - Benin, Burkina Faso
Fighting rural poverty through access to ecologically and economically viable housing for the population living in the Sahel - **Grant:** $171,000
Acciónatura – Spain
Conservation of brown bears in the Pyrenees (Grant: $11,500)

Awely – Nepal
Improving habitat of the tiger and its prey species (Grant: $8,500)

Bat Conservation International – Philippines
Filipinos in support of flying foxes (Grant: $11,500)

COIA - Centro de Observação e Investigação Ambiental - Cape Verde
Egyptian Vulture survey & conservation in Cape Verde (Grant: $11,500)

CONAVI – Panama
Empowering Communities to Protect Declining Ecosystems: Shielding from extinction the Pigmy Three-toed Sloth (Grant: $11,500)

Galapagos Conservancy – Ecuador
Restoring Galapagos tortoise populations and the Island ecosystems that depend on them (Grant: $11,500)

Marine Megafauna Foundation – Ecuador
Ray of Hope – Working towards a comprehensive conservation plan for the giant manta ray in Ecuador (Grant: $9,000)

Nature Océan Indien - Reunion Island
Refuges for the Manapany ornate day gecko (Grant: $8,500)

The Shark Trust - Atl. & Méd.
Angelshark: championing one of nature’s most vulnerable species (Grant: $11,500)

SOS-Diassoko - Côte d’Ivoire
Conservation of sea turtles in Côte d’Ivoire (Grant: $10,200)

Zoological Society of London – Argentina
The Chacoan peccary: urgent conservation action to save a species on the EDGE of Existence (Grant: $11,500)

## Networks and Working groups

<table>
<thead>
<tr>
<th>Admical</th>
<th>CFF</th>
</tr>
</thead>
<tbody>
<tr>
<td>Admical, an association founded to promote corporate sponsorship, is today a clearing house for information, exchanges, ideas, and training. The Foundation participates, in particular, in its Environment Committee and also signed the ‘Charte du Mécénat’ (Sponsorship Charter).</td>
<td>The CFF brings together a number of Foundations and Endowment Funds and leads nine working groups. Fondation Ensemble is a member of two groups : ‘Family or private foundations’ and ‘Environment’.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>EFC</th>
<th>Un Esprit de Famille</th>
</tr>
</thead>
<tbody>
<tr>
<td>The EFC operates as a platform for the exchange of experience, and as a development resource for joint projects. It is also a source of information on Foundations in Europe. With some 250 full members (Foundations and private funding bodies), it operates in over 37 countries (Europe, and also Africa, Asia, Oceania, Latin America and North America).</td>
<td>Un Esprit de Famille is an association that brings together those who run a fund or family-based foundation and are bound by shared values and a desire to work together in order to optimize their own practices. Club du Rond-point Mrs Délia Brémond, is a member of this Club funded in 2008, which brings together several founders of French Family Foundations.</td>

Donate

As from € 3 000, you can sponsor a ‘threatened animal species’ project of your choice.

Fondation Ensemble does not intend to raise funds among general public. However, to support more projects, we are looking for partners and philanthropists.

You will get customized news from the program you support.

You already can review all the ongoing and finished projects on our website (conservation of 46 animal species has been supported since 2004).

Co-fund a project

Starting from a contribution of € 40 000, co-fund a major project in one of the Foundation's focus sectors, with personalized follow-up.

Since 2004, we have been working in four focus sectors: Sustainable Agriculture, Sustainable Fishing, Biodiversity Conservation and Sustainable Technologies. The 34 members of our Board of Experts are involved in the rigorous project selection process. Like all the Foundation's projects, yours will benefit from our team's expertise and will be closely monitored, including in the field.

The Oak Foundation and Synergie Solaire Endowment Fund have already put their trust in us. Join them, become our next funding partner and let us give ourselves the means to move forward, together.

‘We have a lot in common with Fondation Ensemble when it comes to our world view … And that's very important for me – just as important as expertise. Because it's not enough to dream of changing the world, you have to be able to make your dream come true.’
Leonardo Lacerda
Director of the Environment Programme – Oak Foundation

‘I am delighted to be co-funding a project with Fondation Ensemble, which I had come across several times along the way, and which never hesitates to put all its project monitoring expertise at our disposal…’
Hélène Demaegd
President – Synergie Solaire endowment fund
For a sustainable human development integrating environmental protection
